General Information

Utah vehicles are subject to either an age-based uniform fee or a 1.5 percent uniform fee that must be paid before the vehicle can be registered in Utah. This pamphlet gives a brief explanation of the two fees and how they are calculated and collected.

See Utah Code §§41-1a-206, 41-1a-207, 59-2-103, 59-2-405, 59-2-405.1, 59-2-407, 59-2-405.2, 59-2-405.3 and Administrative Rules R884-24P-33, 60, and 61.

Age-based Uniform Fee

The age-based uniform fee is determined by the age of the vehicle. Vehicles subject to the age-based uniform fee are:

- passenger vehicles (cars, light trucks, sport utility vehicles, vans)
- off-highway recreational vehicles
- snowmobiles
- street legal ATVs
- street motorcycles, small motor vehicles
- personal watercraft, vessels under 31 feet in length
- travel trailers, tent trailers, truck campers, non-commercial trailers, park model vehicles
- motor homes

1.5 Percent Uniform Fee

The 1.5 percent uniform fee is multiplied by the taxable value of the vehicle.

Vehicles subject to the 1.5 percent uniform fee are:

- heavy- and medium-duty trucks
- commercial trailers
- vessels 31 feet and longer

Who Pays the Fees

All individuals that are residents of Utah as well as businesses that operate a vehicle in Utah must pay **either** the age-based uniform fee or the 1.5 percent uniform fee, depending on the vehicle type. Individuals or businesses are considered to be residents of Utah, and must register their vehicles in Utah, if they:

- have a permanent home, or live (are domiciled) in Utah;
- live in Utah for six months or more during a calendar year, even if they have a permanent home outside of Utah;
- work in Utah, unless it's seasonal work or they commute into Utah;
- declare themselves to be a resident of Utah in order to get a Utah driver's license or other privileges such as resident school tuition;
- operate a motor vehicle from an office or warehouse in Utah;
- operate a motor vehicle within Utah for intrastate transportation, except for seasonal work.

See Utah Code §41-1a-202.

When Are the Fees Paid

The age-based uniform fee is paid every time the vehicle is registered, including the initial purchase, and at each subsequent renewal of registration. A person may register a motorcycle or motor vehicle 12,000 pounds or less for a six month period. The applicable age-based uniform fees are included on the charts below.

The 1.5 percent uniform fee is paid at the time of registration and is due every year the vehicle is located in Utah, unless it is held as inventory by a dealer. This fee is based on the taxable value of the vehicle as of January 1 of the year for which it is being registered.

Calculating the 1.5 Percent Uniform Fee

The 1.5 percent uniform fee is calculated using the *Depreciated Cost New* (DCN) method. The taxable value of a vehicle is determined by multiplying the original *Manufacturer's Suggested Retail Price* (MSRP) of a vehicle by the *percent good factor* for the vehicle's model year. MSRP values are obtained from appraisal guides published by national organizations. The base model MSRP is used; this excludes the options you may have purchased with your vehicle. The *percent good factor* is a rate calculated and adopted by the state Tax Commission and is derived from the average depreciation observed in vehicles.

MSRP X Percent Good Factor = Taxable Value

The taxable value of the vehicle is then multiplied by the uniform rate of 1.5 percent to arrive at the uniform fee.

Taxable Value X Uniform Rate = Uniform Fee

Example of 1.5 Percent Uniform Fee

Model Year: 2001

Make/Model: Bayliner Boat 34 feet in length

MSRP		\$59,602
Percent Good Factor	X	28%
Taxable Value	=	\$16,688.56
Rate	X	1.5%
1.5 Percent Uniform Fee	=	\$250.33

1.5 Percent Uniform Fee Valuation Appeals

If a vehicle owner believes the value of his vehicle to be less than the value obtained by using the DCN valuation methodology, the value may be appealed to the county board of equalization. This appeal must be filed within 30 days of the mailing of the tax notice. As an alternative to an official appeal, an informal request for review may be made to the county assessor. This informal request does not constitute an appeal and does not change the deadline for filing an appeal.

Dealer Trade-Ins

Age-based Uniform Fee

When a vehicle subject to the age-based uniform fee is traded in to a dealer, no age-based uniform fee is collected by the dealer from the owner. The age-based uniform fee will be collected at the time the vehicle is registered to a new owner.

1.5 Percent Uniform Fee

When a vehicle subject to the 1.5 percent uniform fee is traded in to a dealer and the uniform fee is due, the dealer must collect the fee from the owner and pay it to the county assessor. "All tangible taxable property shall be assessed and taxed at a uniform and equal rate on the basis of its fair market value, *as valued on January 1* ..." (Utah Code §59-2-103). January 1 of each year is considered the lien date. Section 41-1a-206(1)(b) of the Utah Code indicates the tax or fee is a lien on real property sufficient to secure the payment of the tax or fee.

The following scenarios illustrate how dealers handle trade-ins for vehicles subject to the 1.5 percent uniform fee.

• Trade-Ins – Utah Residents

When a Utah resident trades in a vehicle subject to the 1.5 percent uniform fee and the registration expires in the current calendar year, the dealer must collect the 1.5 percent uniform fee from the owner.

Example

Trade-in date	March 15, 2022
Registration expires	October 2022
1.5 percent uniform fee is due at trade-in.	

When a Utah resident trades in a vehicle and the registration expires in the next calendar year, no additional 1.5 percent uniform fee is due for the current calendar year.

Example

Trade-in date	March 15, 2022
Registration expires	February 2023
No 1.5 percent uniform fee is due at trade-in.	

- **Trade-Ins – Move-ins From Out of State**

When someone establishes residency in Utah after the January lien date and trades in a vehicle with a valid registration from another state, the dealer must collect the 1.5 percent uniform fee if the vehicle registration expires in the current calendar year.

Example

Date of Utah residency March 15, 2022

Registration expires October 2022

1.5 percent uniform fee is due for entire year.

If someone establishes residency in Utah during the current calendar year and trades in a vehicle with the registration expiring in the next calendar year, no additional 1.5 percent uniform fee is due for the current year.

Example

Date of Utah residency August 1, 2022

Registration expires March 2023

No 1.5 percent uniform fee is due.

New Residents

When a person or business establishes residency in Utah and brings a vehicle from out of state, they are required to pay the appropriate fee unless all property taxes or fees imposed by the state they moved from have been paid for the current year.
