Partnership Defined

A “partnership” is any unincorporated entity that is treated as a partnership under federal income tax law, including general partnerships, limited partnerships, limited liability partnerships, and limited liability companies. A “partner” includes a partner or member of one of these entities.

Partnerships Not Subject to Tax

A partnership is not subject to Utah income tax. However, partners conducting business are liable for Utah income tax in their separate or individual capacities. A partnership must withhold Utah tax on all nonresident individual pass-through entity taxpayers and all resident or nonresident business, estate, or trust pass-through entity taxpayers. See *Pass-through Entity Withholding Requirements* below.

Pass-through Entity

A pass-through entity is an entity whose income, gains, losses, deductions and/or credits flow through to its partners (partnerships), members (limited liability companies), shareholders (S corporations) or beneficiaries (estates and trusts) for federal tax purposes.

Pass-through Entity Taxpayer

A pass-through entity taxpayer is any entity which has income, gains, losses, deductions and/or credits passed to it from a pass-through entity (e.g., an individual who is a partner in a partnership, or a partnership which is a partner in another partnership).

Filing Requirements

A partnership or other entity treated as a partnership for federal tax purposes, all of whose partners or members are Utah resident individuals, is not required to file a Utah return, TC-65, if:

- it is not a pass-through entity taxpayer, and
- it maintains records that show each partner's or member's share of income, losses, credits, and other distributive items, and those records are made available to the Tax Commission upon request.

A partnership or other entity treated as a partnership for federal tax purposes with any partners or members who are businesses, trusts, estates or nonresident individuals is required to file a TC-65.

Pass-through Entity Withholding Requirements

Partnerships and business entities treated as partnerships are considered pass-through entities (see UCA §59-10-1402(11)) and must withhold Utah income tax on all business partners, trust or estate partners, and nonresident individual partners. These partners are collectively referred to as pass-through entity taxpayers (see UCA §59-10-1402(12)). A partnership is not required to withhold on a partner that is exempt from tax under UCA §59-7-102(1)(a) or §59-10-104.1, or if the pass-through entity is a plan under IRC §§401, 408 or 457 and is not required to file a return under UCA Chapter 7, or is a publicly traded partnership as defined under UCA §59-10-1403.2(1)(b)(iv).

Utah imposes a 4.5 percent withholding tax on all Utah business and nonbusiness income derived from or connected with Utah sources and attributable to pass-through entity taxpayers. The partnership may reduce this withholding by any mineral production withholding tax, previous pass-through entity withholding tax allocated to the partner, and taxes paid for this partner with form TC-75 (*Voluntary Taxable Income Election for Pass-through Entities*).

Calculate Utah withholding tax on Schedule N. See the instructions for Schedule N on page 21 for more details.

The partnership must provide a Utah Schedule K-1 to each partner showing the amount of Utah withholding paid on behalf of the partner. This withholding tax is then claimed as a credit by the partner on the partner's Utah income tax return.

If a partnership has an interest in another partnership, that upper-tier partnership must withhold Utah income tax on Utah income allocated to the lower-tier partnership. The upper-tier partnership must provide a Utah Schedule K-1 showing the amount of Utah withholding tax paid on behalf of the lower-tier partnership. The lower-tier partnership must report this withholding tax on form TC-250 and then allocate it to its partners, who will claim the withholding tax on their returns. Enter this previous pass-through entity withholding tax for each partner on Schedules K and K-1.

The partnership may request a waiver of withholding tax and any associated penalty and interest for all or selected partners who filed and paid tax on the Utah income from this partnership. The tax must be paid on or before the partnership's return due date, including extensions (see UCA §59-10-1403.2(5)).

Partnership Identification Number

The partnership's federal Employer Identification Number (EIN) is the Utah identification number. The Utah Department of Commerce also issues a registration number upon incorporation or qualification in Utah. Enter both the EIN and Utah Incorporation/Qualification number in the proper fields on page 1 of form TC-65.

Partnership Changes

To report partnership changes (e.g., name change, physical and/or mailing address changes, or ceasing to do business in Utah) submit form TC-69C to:

Master Records
Utah State Tax Commission
210 N 1950 W
SLC, UT 84134-3215

Where to File

Mail your return to:
Utah State Tax Commission
210 N 1950 W
SLC, UT 84134-0270

You may also pay any tax due at tap.utah.gov.

Due Date

The return is due on or before the 15th day of the fourth month following the close of the tax year or the due date of the federal return, whichever is later. If the due date falls on a Saturday, Sunday or legal holiday, the due date is the next business day.

Filing Extension

Partnerships are automatically allowed an extension of up to five months to file a return without filing an extension form. **This is NOT an extension of time to pay taxes – it is only an extension of time to file your return.** To avoid penalty, the prepayment requirements must be met on or before the original return due date and the return must be filed within the five-month extension period.

Note: All pass-through withholding tax from Schedule N, column J must be paid by the original due date of the return, without regard to extensions.

Penalties

Utah law (UCA §59-1-401) provides penalties for not filing tax returns by the due date, not paying tax due on time, not making sufficient prepayment on extension returns, and not filing information returns or supporting schedules. See tax.utah.gov/billing/penalties-interest and Pub 58, *Utah Interest and Penalties*, at tax.utah.gov/forms.

Interest (in addition to penalties due)

Interest is assessed on underpayments from the due date until the liability is paid in full. The interest rate for the 2026 calendar year is 6 percent.

For more information, get Pub 58, *Utah Interest and Penalties*, at tax.utah.gov/forms.

Rounding Off to Whole Dollars

Round off cents to the nearest whole dollar. Round down if cents are under 50 cents; round up if cents are 50 cents and above. **Do not enter cents on the return.**

Negative Numbers

When reporting losses or other negative numbers, do not use parentheses. Always indicate a negative number with a minus sign (-).

What to Attach and What to Keep

Include the following with your Utah TC-65. Also, keep copies of these with your tax records.

- **Utah Partnership Return Schedules:** Attach applicable Utah schedules A, H, J, K, N, and/or TC-250. Also attach Utah Schedule K-1 for each partner.

Do not send a copy of your federal return, federal Schedules K-1, credit schedules, worksheets, or other documentation with your Utah return, unless otherwise stated in these instructions. Keep these in your files. We may ask you to provide them later to verify entries on your Utah return.

Federal Taxable Income (Loss)

Utah law defines federal taxable income as "taxable income as currently defined in §63, Internal Revenue Code." Since Utah's taxable income is based on federal taxable income, a partner's ability to carry forward and carry back partnership losses is determined on the federal level. The loss taken by a partner in a given year must match the loss taken on the federal return. Losses cannot be independently carried back or forward in any given year on the partner's Utah return.

Utah Income

Complete Schedule A to determine Utah income or loss. If the partnership does business both within and outside of Utah, the portion of the partnership income attributable to Utah is determined by first completing TC-20, Schedule J, and then Schedule A.

Business Income

Business income means income arising from transactions and activity in the regular course of the taxpayer's trade or business and includes income from tangible and intangible property if the acquisition, management and disposition of the property constitute integral parts of the taxpayer's regular trade or business operations. See UCA §59-10-1402(2).

Business income apportioned to Utah is subject to the pass-through entity withholding requirements.

The following are examples of business income:

- Interest income on loans and investments made in the ordinary course of a trade or business of lending money.
- Interest income on accounts receivable arising from the performance of services or sales of property.
- Income from investments made in the ordinary course of a trade or business of furnishing insurance or annuity contracts or reinsuring risks underwritten by insurance companies.

- Income or gain derived in the ordinary course of an activity of trading or dealing in any property if such activity constitutes a trade or business (unless the dealer held the property for investment at any time before such income or gain is recognized).
- Royalties derived by the taxpayer in the ordinary course of a trade or business of licensing intangible property.
- Amounts included in gross income of a patron of a cooperative by reason of any payment or allocation to the patron based on patronage occurring with respect to a trade or business of the patron.
- Other income identified by the IRS as income derived by the taxpayer in the ordinary course of a trade or business.

Nonbusiness Income

Nonbusiness income means all income other than business income. See UCA §59-10-1402(8). Nonbusiness income includes portfolio income that is not derived in the ordinary course of a pass-through entity's trade or business. The burden of proof is on the taxpayer to justify the manner in which income is claimed on the return.

Apportionable Income

The following types of income are apportionable business income:

1. Interest, dividends, royalties, gains, etc., derived in the ordinary course of a pass-through entity's trade or business.
2. Interest, dividends, gains, etc., of an entity whose primary business activity is investing funds (such as with a brokerage firm).
3. Income received from holdings in or the sale of partnership interests.

Modifications

Modifications may be needed to determine the Utah taxable income of a partner. See *Character of Partnership Items* and *Nonresident or Part-year Resident Share of Partnership Items* below.

Character of Partnership Items

1. Each item of partnership income, gain, loss or deduction has the same character for a partner as it has for federal income tax purposes. When an item is not characterized for federal income tax purposes, it has the same character for a partner as if realized directly from the source realized by the partnership, or incurred in the same manner as incurred by the partnership.
2. In determining Utah taxable income of a partner, make any modification (such as U.S. government bond interest) that relates to an item of the partnership income, gain, loss or deduction in accordance with the partner's distributive share for federal income tax purposes of the items to which the modification relates. Where a partner's share of any such item is not required to be taken into account separately for federal income tax purposes, determine the partner's distributive share of such item in accordance with their distributive share for federal income tax purposes of partnership income or loss generally.

3. When a partner's distributive share of an item of partnership income, gain, loss or deduction is determined for federal income tax purposes by a special provision in the partnership agreement with respect to such item, and when the principal purpose of such provision is the avoidance or evasion of tax, determine the partner's distributive share of such item and any modification regarding it as if the partnership agreement makes no special provision with respect to that item.

Nonresident or Part-year Resident Share of Partnership Items

1. In determining a nonresident partner's adjusted gross income, include only the part derived from or connected with sources in Utah of the partner's distributive share of items of partnership income, gain, loss or deduction entering into the partner's federal adjusted gross income. (The Utah portion is shown alongside the total for each item amount on Utah Schedule K.)
2. In determining the sources of a nonresident partner's income:
 - a. Do not give consideration to a provision in the partnership agreement that characterizes payments to the partner as being for services or for the use of capital, or allocates to the partner, as income or gain from sources outside Utah, a greater portion of their distributive share of partnership income or gain than the ratio of partnership income or gain from sources outside Utah to partnership income or gain from all sources, except as provided in 5 below.
 - b. Do not give consideration to a provision in the partnership agreement that allocates to the partner a greater portion of a partnership item, loss or deduction connected with sources in Utah than their proportionate share, for federal income tax purposes, of partnership loss or deduction generally, except as provided in 5 below.
3. Make any modification (such as for U.S. government bond interest) that relates to an item of partnership income, gain, loss or deduction in accordance with the partner's distributive share for federal income tax purposes of the item to which the modification relates, but limited to the portion of such item derived from or connected with sources in Utah.
4. Determine a nonresident partner's distributive share of items of income, gain, loss or deduction as provided in *Character of Partnership Items*, above.
5. The Tax Commission may authorize the use of other methods of determining a nonresident partner's portion of a partnership item derived from or connected with sources in Utah, and the modification related to it, as may be appropriate and equitable, on such terms and conditions as it may require.

Mineral Producers or Payers

If the partnership is a producer paying proceeds in connection with mineral properties located in Utah, the partnership must report to each recipient their share of mineral production withholding tax withheld and paid to the Tax Commission. The producer must furnish a copy of form TC-675R to each recipient. The recipient will take credit for the amount withheld on their Utah individual income tax return, fiduciary income tax return or corporation franchise or income tax return.

If the partnership is the recipient of proceeds in connection with mineral properties located within Utah, the partnership should complete TC-250, Part 3, using code 46. Do not attach form TC-675R to the partnership return. The amounts withheld are distributed to each partner in proportion to each partner's share of income and should be shown on Schedule N and on Utah Schedules K and K-1.

If the partnership is itself a pass-through entity taxpayer and receives a distribution of mineral production withholding tax from an upper-tier pass-through entity, enter the mineral production withholding tax allocated to this partnership on TC-250, Part 2, using code 46. Do not attach Utah Schedule K-1 the partnership receives to this partnership return.

Line-by-Line Instructions

Line 1 – Date Registered in Utah

Enter the date the partnership was registered in Utah in the format mm/dd/yyyy.

Line 2 – Date Dissolved

If the partnership was dissolved during the tax year, enter the date of dissolution of the partnership in the format mm/dd/yyyy.

Line 3 – Total Pass-through Withholding Tax

Do not include on this line any pass-through withholding tax credit received from another pass-through entity as reported on a Utah Schedule K-1 you received. Pass-through withholding tax credits received from other pass-through entities are entered on TC-250 and allocated to the partners/members on Utah Schedule K-1.

Line 4 – Utah Use Tax

Use tax is a tax on goods and taxable services purchased for use, storage or other consumption in Utah. Use tax applies only if sales tax was not paid at the time of purchase. If you purchased an item from an out-of-state seller (including Internet, catalog, radio and TV purchases) and the seller did not collect sales tax on that purchase, you must pay the use tax directly to the Tax Commission.

If you have a Utah sales tax license/account, report the use tax on your sales tax return. If you do not have a Utah sales tax license/account, report the use tax on line 4 of TC-65.

You may take a credit for sales or use tax paid to another state (but not a foreign country). If the other state's tax rate is lower than Utah's, you must pay the difference. If the other state's tax rate is more than Utah's, no credit or refund is given. If sales tax was paid to more than one state, complete the *Use Tax Worksheet* below for each state. Add lines 8 on all worksheets and enter the total on line 4 of TC-65.

Sales and use tax rates vary throughout Utah. Use the *Use Tax Rate Chart* below to get the rate for the location where the merchandise was delivered, stored, used or consumed. Use the county tax rate if the city is not listed.

Grocery food bought through the Internet or catalog is taxed at 3 percent. The grocery food must be sold for ingestion or chewing by humans and consumed for the substance's taste or nutritional value. The reduced rate does not apply to alcoholic beverages or tobacco. See Pub 25, *Sales and Use Tax*, at tax.utah.gov/forms.

Business income is income arising from transactions and activity in the regular course of a taxpayer's trade or business. It includes income from tangible and intangible property if the acquisition, management and disposition of the property constitutes integral parts of the taxpayer's regular trade or business operations.

Nonbusiness income is all income that does not arise from a taxpayer's trade or business operations. Intangible income must be properly classified and based upon factual evidence. The burden of proof is on the taxpayer to justify how the income is claimed on the return.

Interest income is business income where the intangible with respect to which the interest was received arises out of or was created in the regular course of the taxpayer's trade or business operations, or where the purpose for acquiring and holding the intangible is an integral, functional, or operative component of the taxpayer's trade or business operations, or otherwise materially contributes to the production of business income of the trade or business operations. See Tax Commission Rule R865-6F-8(2)(e)(iii).

Dividends are business income where the stock with respect to which the dividends were received arose out of or was acquired in the regular course of the taxpayer's trade or business operations or where the acquiring and holding of the stock is an integral, functional, or operative component of the taxpayer's trade or business operations, or otherwise materially contributes to the production of business income of the trade or business operations. See Tax Commission Rule R865-6F-8(2)(e)(iv).

Gain or loss from the sale, exchange, or other disposition of real property or of tangible or intangible personal property constitutes business income if the property while owned by the taxpayer was used in, or was otherwise included in the property factor of the taxpayer's trade or business. See Tax Commission Rule R865-6F-8(2)(e)(ii).

Rental income from real and tangible property is business income if the property with respect to which the rental income was received is or was used in the taxpayer's trade or business and therefore is includable in the property factor. See Tax Commission Rule R865-6F-8(2)(e)(i).

TC-20, Schedule J – Apportionment Schedule

Use TC-20, Schedule J to calculate the portion of the taxpayer's income attributable to Utah, if the taxpayer does business both within and outside of Utah.

Complete TC-20, Schedule J to determine the apportionment fraction (decimal). The factors express a ratio for property in Utah to total property everywhere, for wages and salaries in Utah to total wages and salaries everywhere, and for sales in Utah to total sales everywhere. Use these factors or ratios to arrive at the Utah apportionment fraction calculated to **six decimals**. Then apply this fraction (decimal) to the apportionable income (or loss) on Schedule A to arrive at the amount of income (or loss) apportioned to Utah. In cases where one or more of the factors is omitted due to peculiar aspects of the business operations, use the number of factors present to determine the Utah apportionment fraction.

Your economic activities, and your method of apportioning income in the previous year, dictate the apportionment method you may use.

Pass-through Entity Taxpayers

Partners, shareholders and beneficiaries of pass-through entities (an entity taxed as a partnership, S corporation or trust) must include their pro rata share of the pass-through entity's property, payroll and sales in their calculation of the apportionment factor on TC-20, Schedule J, page 1.

If a corporation holds direct and indirect ownership interests in tiered pass-through entities, it must include its pro rata share of the apportionment factors (property, payroll and sales) of the pass-through entities, applying the respective ownership percentages. For example, a corporation that holds 50 percent interest in Partnership A that in turn holds 20 percent interest in Partnership B would include 50 percent of the factors of Partnership A, and 10 percent (50 percent of 20 percent) of the factors of Partnership B.

Apportionment Method

To determine if you must apportion income using the sales factor formula or if you qualify as an optional apportionment taxpayer, take into account the economic activities of each of the entities included in the return. Include the economic activities of any pass-through entities whose income and factors are included in the return.

Sales Factor Weighted Taxpayers

A sales factor weighted taxpayer may only use the sales factor fraction to apportion income.

You must use the sales factor formula if you:

1. apportioned income using the sales factor formula during the prior tax year,
2. do not meet the definition of an optional apportionment taxpayer (see instructions below), or
3. generate more than 50 percent of total sales everywhere from economic activities in any NAICS codes OTHER THAN these identified NAICS codes:

- Sector 21, Mining
- Industry Group 2212, Natural Gas Distribution
- Sector 31-33, Manufacturing EXCEPT:
 - Industry Group 3254, Pharmaceutical and Medicine Manufacturing
 - Industry Group 3333, Commercial and Service Industry Machinery Manufacturing
 - Subsector 334, Computer and Electronic Product Manufacturing
 - Code 336111, Automobile Manufacturing
- Sector 48-49, Transportation and Warehousing
- Sector 51, Information EXCEPT:
 - Subsector 519, Other Information Services
- Sector 52, Finance and Insurance

Report property and payroll factors on Schedule J, page 1, but do not use them to calculate the apportionment of sales factor weighted taxpayers.

Sales factor weighted taxpayers must calculate the apportionment fraction on Schedule J, Page 2 using Part 2 - *Sales Factor Formula*.

Optional Apportionment Taxpayers

If you did not use the sales factor fraction in the prior year, and you do not generate more than 50 percent of total sales everywhere from economic activities in any NAICS codes OTHER THAN the **identified NAICS codes** listed above, determine if you are an optional apportionment taxpayer by first calculating the following two fractions:

- **Property factor fraction:** Add together the value of property in Utah attributable to economic activities that are classified in an **excluded NAICS code**. Divide this number by the value of all property in Utah. Remove property from this calculation if the property is attributable to economic activities in both excluded NAICS codes and non-excluded NAICS codes.
- **Payroll factor fraction:** Add together the amount of payroll in Utah attributable to economic activities that are classified in an **excluded NAICS code**. Divide this number by the total amount of payroll in Utah. A taxpayer engaged in activities in an excluded NAICS code must remove an individual's payroll from this calculation of the payroll factor fraction if the individual's payroll may be attributed to economic activities in both excluded NAICS codes and NAICS codes that are not excluded, or to providing management, information technology, finance, accounting, legal or human resource services.

Add the property and payroll factor fractions and divide that sum by two. If either the property factor fraction or payroll factor fraction has a denominator of zero, or is otherwise excluded, divide by one. If the average is more than 50 percent, you are an optional apportionment taxpayer. If the average is not more than 50 percent, you are not an optional apportionment taxpayer and must apportion income to Utah using the sales factor.

Optional apportionment taxpayers may calculate the apportionment fraction using either the equally-weighted three factor formula (Schedule J, Part 1) or the sales factor formula (Schedule J, Part 2). If you choose to use the sales factor formula, you must file using only the sales factor in the next tax year.

Excluded NAICS codes are NAICS codes of the 2017 North American Industry Classification System within:

- Code 211120, Crude Petroleum Extraction
- Industry Group 2121, Coal Mining
- Industry Group 2212, Natural Gas Distribution
- Subsector 311, Food Manufacturing
- Industry Group 3121, Beverage Manufacturing
- Code 327310, Cement Manufacturing
- Subsector 482, Rail Transportation
- Code 512110, Motion Picture and Video Production
- Subsector 515, Broadcasting (except Internet)
- Code 522110, Commercial Banking

Line Instructions

Business Activity

Briefly describe the nature and location(s) of your Utah business activities in the space provided at the top of this schedule.

Lines 1a - 1f – Property Factor

Show the average cost value during the tax year of real and tangible personal property used in the business within Utah (including leased property) in column A and overall (including Utah) in column B.

Property you own is valued at its original cost. Property you rent is valued at eight times the net annual rental rate. Net annual rental rate is the annual rental rate you pay less the annual rate you receive from sub-rentals.

The average value of property must be determined by averaging the cost values at the beginning and end of the tax period. However, monthly values may be used or required if monthly averaging more clearly reflects your property's average value.

Attach a supporting schedule whenever you use monthly averaging.

If you are a pass-through entity taxpayer, add to line 1e any amounts listed on line J of any TC-65 Schedule K-1 you have received.

Enter totals of lines 1a through 1e in the respective columns on line 1f.

Line 2 – Property Factor Calculation

Determine the property factor (decimal) by dividing line 1f, column A by line 1f, column B.

Line 3 – Payroll Factor

Wages, salaries, commissions and other includable compensation paid to employees for personal services must be included in the Utah factor to the extent the services, for which the compensation was paid, were rendered in Utah.

Compensation is paid in Utah if:

1. the individual's service is performed entirely within Utah;
2. the individual's service is performed both within and outside Utah, but the service performed outside Utah is incidental to the individual's service within Utah; or
3. some of the service is performed in Utah and:
 - a. the base of operations or, if there is no base of operations, the place where the service is directed or controlled, is within Utah; or
 - b. the base of operations or the place where the service is directed or controlled is not in any state where some part of the service is performed, but the individual's residence is in Utah.

Amounts reportable for employment security purposes may ordinarily be used to determine the wage factor.

Overall wages, including Utah, are listed in column B.

If you are a pass-through entity taxpayer, add to line 3a any amounts listed on line K of any TC-65 Schedule K-1 you have received.

Line 4 – Payroll Factor Calculation

Determine the payroll factor (decimal) by dividing line 3a, column A by line 3a, column B.

Lines 5a - 5h – Sales Factor

The sales factor is the fraction the sales or charges for services within Utah for the tax year bear to the overall sales for the tax year. Gross receipts from the performance of services in Utah are assigned to the Utah sales numerator if the purchaser of the service receives a greater benefit of the service in Utah than in any other state.

Taxpayers that perform a service both in and outside Utah must include service income on line 5g in column A (Inside Utah) if the purchaser of the service receives a greater benefit of the service in Utah than in any other state. The former "cost of performance" method no longer applies. (See UCA §59-7-319(3)(a).)

Sales of tangible personal property are in Utah if the property is delivered or shipped to a purchaser within Utah regardless of the F.O.B. point or other conditions of the sale, or if the property is shipped from an office, store, warehouse, factory or other place of storage in Utah and:

1. the purchaser is the United States Government, or
2. the taxpayer is not taxable in the state of the purchaser.

Overall sales, including Utah, are listed in column B.

Note: Securities brokerage businesses must follow the provisions in UCA §59-7-319(6).

If you are a pass-through entity taxpayer, add to line 5g any amounts listed on line L of any TC-65 Schedule K-1 you have received.

Enter totals of lines 5a through 5g in their respective columns on line 5h.

Line 6 – Sales Factor Calculation

Determine the sales factor (decimal) by dividing line 5h, column A by line 5h, column B.

Enter the amount of Utah withholding tax withheld by this partnership on behalf of this partner if treated as a pass-through entity taxpayer and calculated on Schedule N, and for whom the waiver from withholding was not requested (see instructions below). The partner will claim this amount on their individual Utah return.

Enter an "X" if the partnership entered a "1" in the **Withholding Waiver Request** box at the top of Schedule N to not withhold Utah tax on all pass-through entity taxpayers, or if the partnership entered a "2" in the **Withholding Waiver Request** box at the top of Schedule N and entered an "X" on line B of Schedule N for this specific partner.

Provide each partner/member a copy of their Utah Schedule K-1.

Schedule N – Pass-through Entity Withholding Tax

The partnership, as a pass-through entity, must pay or withhold tax on behalf of each nonresident individual partner and each resident or nonresident business partner, and each resident or nonresident trust or estate partner (collectively referred to as pass-through entity taxpayers) unless a withholding waiver request is made (see below). A partnership is not required to withhold Utah tax on a partner if:

- the partner is exempt from taxation under UCA §59-7-102(1)(a) or §59-10-104.1,
- the partnership is a plan under IRC §§401, 408 or 457 and is not required to file a return under UCA Chapter 7, or
- the partnership is a publicly traded partnership as defined under UCA §59-10-1403.2(1)(b)(iv).

A partner's share of taxable income is based on the percent determined in the partnership agreement for the partner on the last day of the partnership filing period, unless there was a change in ownership during the filing period. If there was a change in partners during the year, each partner's percentage of income is prorated by the number of days the interest was owned during the filing period.

Partners may take a credit for the amount of tax paid by the partnership on their behalf. To claim the credit, the partner must file a Utah income tax return for the tax year. A partner subject to withholding by the partnership and who has no other Utah source income may elect to forego the credit and not file a Utah income tax return. However, partners with income or loss from other Utah sources must file a Utah income tax return. A partner who is eligible for Utah tax credits, in addition to the pass-through tax withheld, must file a Utah income tax return to claim those credits.

If the partner is a pass-through entity, it must file a Utah return to report its income/loss and withholding allocations to its partners/members/shareholders or beneficiaries.

Partnerships having partners for whom withholding is required must complete Schedule N showing the amount of Utah income attributable to the partner, the amount of Utah tax on such income (4.5 percent), any Utah mineral production withholding tax, upper-tier Utah pass-through entity withholding tax credited to the partners, taxes paid with form TC-75 (*Voluntary Taxable Income Election for Pass-through Entities*), and the net amount of withholding tax this partnership must pay on behalf of such partners. Use additional forms TC-65, Schedule N, if needed.

Withholding Waiver Claim (UCA §59-10-1403.2(5))

You may claim a waiver from the requirement to withhold Utah income tax on pass-through entity taxpayers by entering a "1" in the box if the waiver is for **all** partners, or a "2" if the waiver is for only certain partners. Also enter an "X" on line B and a "0" in column F for each partner for whom the waiver is claimed.

Claiming the waiver for all or specific partners does not relieve the partnership from the responsibility for the payment of Utah tax on the income allocated to partners if the partners do not pay. If the partner or partners for whom you claimed a waiver fail to file a return and make the required payment in a timely manner, you will be liable for the withholding, plus any penalties and interest.

Line A – Name of Partner (Pass-through Entity Taxpayer)

Enter the name of each nonresident individual partner, resident/nonresident business partner, or resident/nonresident trust or estate partner (referred to as a pass-through entity taxpayer).

Line B – Withholding Waiver for this Partner

If you entered either a “1” or a “2” in the **Withholding Waiver Claim** box at the top of Schedule N, enter an “X” on line B if this partner is included in the waiver claim.

If you check this box, enter a “0” on line F for the partner.

Line C – SSN/EIN of Partner

Enter the Social Security number of each nonresident individual partner, the federal EIN of each resident/nonresident business partner, or the federal EIN of each resident/nonresident trust or estate partner.

Line D – Percent of Income or Ownership for Partner

Enter the percent of income for each partner based on the partnership agreement, or the percent of ownership in the partnership by each partner, to four decimal places. You must enter either the percent of income or the percent of ownership in the partnership for all partners; do not mix the percentages. See Utah Rule R865-91-13.

Line E – Income/Loss Attributable to Utah

Enter the income/loss attributable to Utah and taxable to the pass-through entity taxpayer.

Calculate this income for a pass-through entity taxpayer by multiplying the amount on Schedule A, line 17 by each pass-through entity taxpayer's percentage shown on line D (or in accordance with the partnership agreement, if different).

If the partner received a guaranteed payment attributable to Utah source income, include that guaranteed payment (other than any health insurance included in the guaranteed payment) in the amount reported on line E. Utah pass-through withholding tax must include that payment. Guaranteed payments are sourced to the state or country where the income was generated, regardless of provisions which are contrary in the partnership agreement.

Line F – 4.5 Percent of Income

Multiply the amount of income attributable to Utah for each pass-through entity taxpayer (line E) by 4.5 percent (.045). If the amount on line E is a loss, enter “0”. Also enter “0” if the waiver request has been requested for this partner (box B checked).

Line G – Mineral Production Withholding Credit

Enter the amount of any mineral production withholding tax allocated to the pass-through entity taxpayer. The credit for mineral production withholding tax reduces the amount of Utah withholding tax that is calculated for this partner on Schedule N. Also report the credit on line 18 of Schedule K-1 for this partner.

Line H – Upper-tier Pass-through Withholding Tax

Enter the amount of any pass-through entity withholding tax paid by an upper-tier (previous) pass-through entity, attributable to this partnership, and allocated to the pass-through entity taxpayer. The credit for upper-tier pass-through entity withholding tax reduces the amount of Utah withholding tax calculated for this partner on Schedule N. Also report the credit on line 19 of Schedule K-1 for this partner.

Line I – Tax Paid by Pass-through Entity (PTE)

Enter the amount of taxes paid for this partner with form TC-75, *Voluntary Taxable Income Election for Pass-through Entities* (TC-75 is filed electronically on or before the last day of the partnership's tax year). This amount reduces the Utah withholding tax calculated for this partner on Schedule N. Also report the credit on line 17 of Schedule K-1 for this partner.

Line J – Withholding Tax to be Paid by This Partnership

Subtract the total of the credits on lines G, H and I from the tax calculated on line F for each pass-through entity taxpayer. Do not enter an amount less than zero.

The withholding tax shown in column J is the withholding tax this partnership must withhold or pay on behalf of the pass-through entity taxpayer. Report this withholding tax on line 19 of Utah Schedule K-1 for this partner.
