- **Utah Tax Rate:** The 2025 Utah Legislature passed HB 106, lowering the corporate income tax rate from 4.55 percent to 4.5 percent.
- **Carryforward Extension:** The 2025 Utah Legislature passed HB 60, extending the carryforward for the Pass-through Entity Taxpayer Income Tax Credit (creditAP) from 5 to 10 years. See page 17.

Reminders

- **Market Sourcing of Revenues from Performance of Services by Multi-state Taxpayers:** Corporations performing a service both in and outside of Utah must calculate the sales factor numerator on TC-20, Schedule J by considering the service income to be in Utah if the buyer receives a greater benefit of the service in Utah than in any other state. See *TC-20, Schedule J—Apportionment Schedule* on page 11.
- **Method of Apportioning Income:** To determine if you qualify as an optional apportionment taxpayer or a sales factor weighted taxpayer, see *Schedule J—Apportionment Schedule* on page 11.

Identification Numbers

The corporation's federal Employer Identification Number (EIN) is the Utah identification number. The Utah Department of Commerce also issues a registration number upon incorporation or qualification in Utah. Enter both the EIN and Utah Incorporation/Qualification number in the proper fields on page 1 of form TC-20S. These numbers are used for identification of the corporate tax return.

Corporation Changes

Report corporation changes (e.g., name change, physical and/or mailing address changes, merger, or ceasing to do business in Utah) in writing to:

UT Division of Corporations and Commercial Code
Department of Commerce
160 E 300 S, 2nd Floor

Master Records
Utah State Tax Commission
210 N 1950 W
Salt Lake City, UT 84134-3215

Dissolution or Withdrawal

Corporations that cease to do business in Utah must either dissolve or withdraw the corporation.

Corporations incorporated in Utah must file Articles of Dissolution with the Department of Commerce.

Corporations incorporated outside of Utah must file an *Application for Withdrawal* with the Department of Commerce. The corporation must file all its tax returns and pay all its taxes before the Department of Commerce will authorize the withdrawal.

S Corporations Not Subject to Tax

An S corporation is not subject to Utah income tax. However, shareholders are liable for Utah income tax in their separate or individual capacities. An S corporation must withhold Utah tax on all nonresident individual pass-through entity taxpayers and all resident or nonresident business, estate, or trust pass-through entity taxpayers. See *Pass-through Entity Withholding Requirements* below.

Pass-through Entity

A pass-through entity is an entity whose income, gains, losses, deductions and/or credits flow through to its partners (partnerships), members (limited liability companies), shareholders (S corporations) or beneficiaries (estates and trusts) for federal tax purposes.

Pass-through Entity Taxpayer

A pass-through entity taxpayer is an entity which has income, gains, losses, deductions and/or credits passed to it from a pass-through entity (e.g., an individual who is a shareholder in an S corporation, or a partnership which is a shareholder in an S corporation).

Liability for Filing and Paying

Tax Forms

The Tax Commission does not mail forms for filing corporate taxes. Get forms at tax.utah.gov/forms.

Note: See *What to Attach and What to Keep* on page 3 for what federal information is required with the Utah return.

Franchise Tax

Every C corporation incorporated in Utah (domestic), qualified in Utah (foreign), or doing business in Utah, whether qualified or not, must file a corporate franchise tax return. C corporation returns are filed on form TC-20. There is a minimum tax (privilege tax) of \$100 on every corporation that files form TC-20, regardless of whether or not the corporation exercises its right to do business.

S Corporation

Every S corporation (as defined in IRC §1361(a)) that has filed a proper and timely election under IRC §1362(a) must file form TC-20S, so long as the federal election remains in effect. The minimum tax does not apply to S corporations.

Income Tax

Corporations required to file under the income tax provisions are those that derive income from Utah sources, but are not qualified to do business in Utah and have no regular and established place of business in Utah, either owned or rented, and do not maintain an inventory or have employees located at a place of business in Utah.

Example 1:

A trucking company, operated in or through Utah by a foreign corporation not qualified to do business in Utah, is subject to income tax rather than franchise tax.

Example 2:

A bank that makes loans or issues credit cards to Utah customers is also subject to income tax rather than franchise tax if it has no place of business in Utah and is not qualified to do business in Utah.

A \$100 minimum tax applies to the corporate income tax.

Pass-through Entity Withholding Requirements

S corporations and business entities treated as S corporations are considered pass-through entities (see UCA §59-10-1402(11)) and must withhold Utah income tax on all nonresident individual shareholders, on all resident and nonresident business shareholders, and on all resident and nonresident trust and estate shareholders. These shareholders are collectively referred to as pass-through entity taxpayers (see UCA §59-10-1402(12)). An S corporation is not required to withhold on a shareholder that is exempt from tax under UCA §59-7-102(1)(a) or §59-10-104.1, or if the pass-through entity is a plan under IRC §§401, 408 or 457 and is not required to file a return under UCA Chapter 7, or is a publicly traded partnership as defined under UCA §59-10-1403.2(1)(b)(iv).

Utah imposes a 4.5 percent withholding tax on all Utah business and nonbusiness income derived from or connected with Utah sources and attributable to pass-through entity taxpayers. The S corporation may reduce this withholding by any mineral production withholding tax, previous pass-through entity withholding tax allocated to the shareholder, and taxes paid for this shareholder with form TC-75, *Voluntary Taxable Income Election for Pass-through Entities*.

Calculate Utah withholding tax on Schedule N. See the instructions for Schedule N on page 21.

The S corporation must provide a Utah Schedule K-1 to each shareholder showing the amount of Utah withholding paid on behalf of the shareholder. This withholding tax is then claimed as a credit by the shareholder on the shareholder's personal return.

If this S corporation has an interest in a partnership (also considered a pass-through entity), that partnership must withhold Utah income tax on Utah income allocated to this S corporation. The partnership must provide a Schedule K-1

showing the amount of Utah withholding tax paid on behalf of this S corporation. This withholding tax must be reported on TC-250 and then be allocated to the shareholders of this S corporation to be claimed on their personal returns. Enter this previous pass-through entity withholding tax for each shareholder on Schedules K and K-1.

The S corporation may request a waiver of withholding tax and any associated penalty and interest for all or selected shareholders who filed and paid tax on their personal returns on the Utah income from this S corporation. The tax must be paid on or before the S corporation's return due date, including extensions (see UCA §59-10-1403.2(5)).

Qualified Subchapter S Subsidiary

An S corporation that owns one or more qualified subchapter S subsidiaries, as defined in IRC §1361(b)(3)(B), must:

- Include each subsidiary's assets, liabilities and items of income, loss and deductions as part of the parent S corporation's assets, liabilities and items of income, loss and deductions for Utah tax purposes. The qualified subchapter S subsidiary shall not be treated as a separate corporation.
- Take into account the activities of the qualified subchapter S subsidiaries in determining whether the S corporation parent is doing business in Utah. For purpose of this determination, all of the subsidiary's activities will be attributed to the parent.
- Attach TC-20S, Schedule M identifying the qualified subchapter S subsidiaries incorporated, qualified, or doing business in Utah.

Tax Year

The tax year for Utah tax purposes must match the tax year used for federal tax purposes. When the tax year changes for federal purposes, the tax year must be changed for Utah purposes. See *Filing a Return When Period Changed* below.

Filing a Return When Period Changed

When changes are made to the tax year, as indicated under *Tax Year*, above, a short-period return is required. The short-period return must cover the period of less than 12 months between the prior tax year-end and the new tax year. The pass-through entity withholding provisions as provided in Utah Administrative Rule R865-91-13, apply to short period S corporation returns.

Where to File

Mail your return to:

Utah State Tax Commission
210 N 1950 W
Salt Lake City, UT 84134-0300

You may also pay any tax due at tap.utah.gov.

Due Date

A return must be filed on or before the 15th day of the fourth month following the close of the tax year or the due date of the federal return, whichever is later. If the due date falls on a Saturday, Sunday or legal holiday, the due date becomes the next business day.

Filing Extension

Corporations are automatically allowed an extension of up to six months to file a return without filing an extension form. **This is NOT an extension of time to pay your taxes – it is only an extension of time to file your return.** To avoid penalty, the prepayment requirements must be met on or before the original return due date and the return must be filed within the six-month extension period.

Note: All pass-through withholding tax from Schedule N, column J **must** be paid by the original due date of the return, without regard to extensions.

Penalties

Utah law (UCA §59-1-401) provides penalties for not filing tax returns by the due date, not paying tax due on time, not making sufficient prepayment on extension returns, and not filing information returns or supporting schedules. See tax.utah.gov/billing/penalties-interest and Pub 58, *Utah Interest and Penalties*, at tax.utah.gov/forms.

The Tax Commission will calculate the penalty for underpayment of required prepayments.

Interest (in addition to penalties due)

Interest is assessed on underpayments from the due date until the liability is paid in full. The interest rate for the 2026 calendar year is 6 percent.

For more information, get Pub 58, *Utah Interest and Penalties*, at tax.utah.gov/forms.

Rounding Off to Whole Dollars

Round off cents to the nearest whole dollar. Round down if cents are under 50 cents; round up if cents are 50 cents and above. **Do not enter cents on the return.**

Negative Numbers

When reporting losses or other negative numbers, do not use parentheses. Always indicate a negative number with a minus sign (-).

Suspension for Failure to Pay Tax Due

Utah law provides for suspension of a corporation's right to do business in Utah if it fails to pay taxes due before 5:00 p.m. on the last day of the 11th month after the due date.

If you cannot pay the full amount you owe, you can request a payment plan. Log into your TAP account at tap.utah.gov. From the Corporate/Partnership panel, click "Request waiver, payment plan, or payment plan email."

You may also:

1. complete form TC-804B, *Business Tax Payment Agreement Request* (tax.utah.gov/forms), or
2. call the Tax Commission at 801-297-7703 or 1-800-662-4335 ext. 7703.

What to Attach and What to Keep

Include the following with your Utah TC-20S. Also, keep copies of these with your tax records.

- **Utah S Corporation Return Schedules:** Attach applicable Utah schedules A, E, H, J, K, M, N, and/or TC-250. Also attach a Utah Schedule K-1 for each shareholder.
- **Federal Return:** Attach only pages 1 through 5 of your federal S corporation return, plus Schedule M-3 and IRS form 1125-A, if applicable.

Do not send a copy of your entire federal return, federal Schedules K-1, credit schedules, worksheets, or other documentation with your Utah return unless otherwise stated in these instructions. Keep these in your files. We may ask you to provide them later to verify entries on your Utah return.

Federal Taxable Income (Loss)

Utah law defines federal taxable income as "taxable income as currently defined in Section 63, Internal Revenue Code." Since Utah's taxable income is based on federal taxable income, a shareholder's ability to carry forward and carry back corporation losses is determined on the federal level. The loss taken by a shareholder in a given year must match the loss taken on the federal return. Losses cannot be independently carried back or forward in any given year on the shareholder's Utah return.

Utah Income

Complete Schedule A to determine Utah income or loss. If the corporation does business both within and outside of Utah, the portion of the corporation income attributable to Utah is determined by first completing TC-20, Schedule J, and then Schedule A.

Business Income

Business income means income arising from transactions and activity in the regular course of the taxpayer's trade or business and includes income from tangible and intangible property if the acquisition, management and disposition of the property constitutes integral parts of the taxpayer's regular trade or business operations. See UCA §59-10-1402(2).

Business income apportioned to Utah is subject to the pass-through entity withholding requirements.

The following are examples of business income:

- Interest income on loans and investments made in the ordinary course of a trade or business of lending money.
- Interest income on accounts receivable arising from the performance of services or sales of property.
- Income from investments made in the ordinary course of a trade or business of furnishing insurance or annuity contracts or reinsuring risks underwritten by insurance companies.

- Income or gain derived in the ordinary course of an activity of trading or dealing in any property if such activity constitutes a trade or business (unless the dealer held the property for investment at any time before such income or gain is recognized).
- Royalties derived by the taxpayer in the ordinary course of a trade or business of licensing intangible property.
- Amounts included in gross income of a patron of a cooperative by reason of any payment or allocation to the patron based on patronage occurring with respect to a trade or business of the patron.
- Other income identified by the IRS as income derived by the taxpayer in the ordinary course of a trade or business.

Nonbusiness Income

Nonbusiness income means all income other than business income. See UCA §59-10-1402(8). Nonbusiness income includes portfolio income that is not derived in the ordinary course of a pass-through entity's trade or business. The burden of proof is on the taxpayer to justify the manner in which income is claimed on the return.

Apportionable Income

The following types of income are apportionable business income:

1. Interest, dividends, royalties, gains, etc., derived in the ordinary course of a pass-through entity's trade or business.
2. Interest, dividends, gains, etc., of an entity whose primary business activity is investing funds (such as with a brokerage firm).
3. Income received from holdings in or the sale of partnership interests.

Line 16 – Utah Use Tax

Use tax is a tax on goods and taxable services purchased for use, storage or other consumption in Utah during the tax year. Use tax applies only if sales tax was not paid at the time of purchase. If you purchased an item from an out-of-state seller (including Internet, catalog, radio and TV purchases) and the seller did not collect sales tax on that purchase, you must pay the use tax directly to the Tax Commission.

If you have a Utah sales tax license/account, report the use tax on your sales tax return. If you do not have a Utah sales tax license/account, report the use tax on line 16 of TC-20S, Schedule A.

You may take a credit for sales or use tax paid to another state (but not a foreign country). If the other state's tax rate is lower than Utah's, you must pay the difference. If the other state's tax rate is more than Utah's, no credit or refund is given. If sales tax was paid to more than one state, complete the *Use Tax Worksheet* below for each state. Add lines 8 on all worksheets and enter the total on line 16 of Schedule A.

Sales and use tax rates vary throughout Utah. Use the *Use Tax Rate Chart* below to get the rate for the location where the merchandise was delivered, stored, used or consumed. Use the county tax rate if the city is not listed.

Grocery food bought through the Internet or catalog is taxed at 3 percent. The grocery food must be sold for ingestion or chewing by humans and consumed for the substance's taste or nutritional value. The reduced rate does not apply to alcoholic beverages or tobacco. See Pub 25, *Sales and Use Tax*, at tax.utah.gov/forms.

TC-20, Schedule H – Nonbusiness Income Net of Expenses

Complete TC-20, Schedule H to determine nonbusiness income allocated to Utah and outside Utah.

Business income is income arising from transactions and activity in the regular course of a taxpayer's trade or business. It includes income from tangible and intangible property if the acquisition, management and disposition of the property constitutes integral parts of the taxpayer's regular trade or business operations.

Nonbusiness income is all income that does not arise from a taxpayer's trade or business operations. Intangible income must be properly classified and based upon factual evidence. The burden of proof is on the taxpayer to justify how the income is claimed on the return.

Interest income is business income where the intangible with respect to which the interest was received arises out of or was created in the regular course of the taxpayer's trade or business operations, or where the purpose for acquiring and holding the intangible is an integral, functional, or operative component of the taxpayer's trade or business operations, or otherwise materially contributes to the production of business income of the trade or business operations. See Tax Commission Rule R865-6F-8(2)(e)(iii).

Dividends are business income where the stock with respect to which the dividends were received arose out of or was acquired in the regular course of the taxpayer's trade or business operations or where the acquiring and holding of the stock is an integral, functional, or operative component of the taxpayer's trade or business operations, or otherwise materially contributes to the production of business income of the trade or business operations. See Tax Commission Rule R865-6F-8(2)(e)(iv).

Gain or loss from the sale, exchange, or other disposition of real property or of tangible or intangible personal property constitutes business income if the property while owned by the taxpayer was used in, or was otherwise included in the property factor of the taxpayer's trade or business. See Tax Commission Rule R865-6F-8(2)(e)(ii).

Rental income from real and tangible property is business income if the property with respect to which the rental income was received is or was used in the taxpayer's trade or business and therefore is includable in the property factor. See Tax Commission Rule R865-6F-8(2)(e)(i).

TC-20, Schedule J – Apportionment Schedule

Use TC-20, Schedule J to calculate the portion of the taxpayer's income attributable to Utah, if the taxpayer does business both within and outside of Utah.

Complete TC-20, Schedule J to determine the apportionment fraction (decimal). The factors express a ratio for property in Utah to total property everywhere, for wages and salaries in Utah to total wages and salaries everywhere, and for sales in Utah to total sales everywhere. Use these factors or ratios to arrive at the Utah apportionment fraction calculated to **six decimals**. Then apply this fraction (decimal) to the apportionable income (or loss) on Schedule A to arrive at the amount of income (or loss) apportioned to Utah. In cases where one or more of the factors is omitted due to peculiar aspects of the business operations, use the number of factors present to determine the Utah apportionment fraction.

Your economic activities, and your method of apportioning income in the previous year, dictate the apportionment method you may use.

Pass-through Entity Taxpayers

Partners, shareholders and beneficiaries of pass-through entities (an entity taxed as a partnership, S corporation or trust) must include their pro rata share of the pass-through entity's property, payroll and sales in their calculation of the apportionment factor on TC-20, Schedule J, page 1.

If a corporation holds direct and indirect ownership interests in tiered pass-through entities, it must include its pro rata share of the apportionment factors (property, payroll and sales) of the pass-through entities, applying the respective ownership percentages. For example, a corporation that holds 50 percent interest in Partnership A that in turn holds 20 percent interest in Partnership B would include 50 percent of the factors of Partnership A, and 10 percent (50 percent of 20 percent) of the factors of Partnership B.

Apportionment Method

To determine if you must apportion income using the sales factor formula or if you qualify as an optional apportionment taxpayer, take into account the economic activities of each of the entities included in the return. Include the economic activities of any pass-through entities whose income and factors are included in the return.

Sales Factor Weighted Taxpayers

A sales factor weighted taxpayer may only use the sales factor fraction to apportion income.

You must use the sales factor formula if you:

1. apportioned income using the sales factor formula during the prior tax year,
2. do not meet the definition of an optional apportionment taxpayer (see instructions below), or

3. generate more than 50 percent of total sales everywhere from economic activities in any NAICS codes OTHER THAN these identified NAICS codes:

- Sector 21, Mining
- Industry Group 2212, Natural Gas Distribution
- Sector 31-33, Manufacturing EXCEPT:
 - Industry Group 3254, Pharmaceutical and Medicine Manufacturing
 - Industry Group 3333, Commercial and Service Industry Machinery Manufacturing
 - Subsector 334, Computer and Electronic Product Manufacturing
 - Code 336111, Automobile Manufacturing
- Sector 48-49, Transportation and Warehousing
- Sector 51, Information EXCEPT:
 - Subsector 519, Other Information Services
- Sector 52, Finance and Insurance

Report property and payroll factors on Schedule J, page 1, but do not use them to calculate the apportionment of sales factor weighted taxpayers.

Sales factor weighted taxpayers must calculate the apportionment fraction on Schedule J, Page 2 using Part 2 - *Sales Factor Formula*.

Optional Apportionment Taxpayers

If you did not use the sales factor fraction in the prior year, and you do not generate more than 50 percent of total sales everywhere from economic activities in any NAICS codes OTHER THAN the **identified NAICS codes** listed above, determine if you are an optional apportionment taxpayer by first calculating the following two fractions:

- **Property factor fraction:** Add together the value of property in Utah attributable to economic activities that are classified in an excluded NAICS code. Divide this number by the value of all property in Utah. Remove property from this calculation if the property is attributable to economic activities in both excluded NAICS codes and non-excluded NAICS codes.
- **Payroll factor fraction:** Add together the amount of payroll in Utah attributable to economic activities that are classified in an excluded NAICS code. Divide this number by the total amount of payroll in Utah. A taxpayer engaged in activities in an **excluded NAICS code** must remove an individual's payroll from this calculation of the payroll factor fraction if the individual's payroll may be attributed to economic activities in both excluded NAICS codes and NAICS codes that are not excluded, or to providing management, information technology, finance, accounting, legal or human resource services.

Add the property and payroll factor fractions and divide that sum by two. If either the property factor fraction or payroll factor fraction has a denominator of zero, or is otherwise excluded, divide by one. If the average is more than 50 percent, you are an optional apportionment taxpayer. If the average is not more than than 50 percent, you are not an optional apportionment taxpayer and must apportion income to Utah using the sales factor.

Optional apportionment taxpayers may calculate the apportionment fraction using either the equally-weighted three factor formula (Schedule J, Part 1) or the sales factor formula

(Schedule J, Part 2). If you choose to use the sales factor formula, you must file using only the sales factor in the next tax year.

Excluded NAICS codes are NAICS codes of the 2017 North American Industry Classification System within:

- Code 211120, Crude Petroleum Extraction
- Industry Group 2121, Coal Mining
- Industry Group 2212, Natural Gas Distribution
- Subsector 311, Food Manufacturing
- Industry Group 3121, Beverage Manufacturing
- Code 327310, Cement Manufacturing
- Subsector 482, Rail Transportation
- Code 512110, Motion Picture and Video Production
- Subsector 515, Broadcasting (except Internet)
- Code 522110, Commercial Banking

Line Instructions

Business Activity

Briefly describe the nature and location(s) of your Utah business activities in the space provided at the top of this schedule.

Lines 1a - 1f – Property Factor

Show the average cost value during the tax year of real and tangible personal property used in the business within Utah (including leased property) in column A and overall (including Utah) in column B.

Property you own is valued at its original cost. Property you rent is valued at eight times the net annual rental rate. Net annual rental rate is the annual rental rate you pay less the annual rate you receive from sub-rentals.

The average value of property must be determined by averaging the cost values at the beginning and end of the tax period. However, monthly values may be used or required if monthly averaging more clearly reflects your property's average value.

Attach a supporting schedule whenever you use monthly averaging.

If you are a pass-through entity taxpayer, add to line 1e any amounts listed on line J of any TC-65 Schedule K-1 you have received.

Enter totals of lines 1a through 1e in the respective columns on line 1f.

Line 2 – Property Factor Calculation

Determine the property factor (decimal) by dividing line 1f, column A by line 1f, column B.

Line 3 – Payroll Factor

Wages, salaries, commissions and other includable compensation paid to employees for personal services must be included in the Utah factor to the extent the services, for which the compensation was paid, were rendered in Utah.

Compensation is paid in Utah if:

1. the individual's service is performed entirely within Utah;

2. the individual's service is performed both within and outside Utah, but the service performed outside Utah is incidental to the individual's service within Utah; or
3. some of the service is performed in Utah and:
 - a. the base of operations or, if there is no base of operations, the place where the service is directed or controlled, is within Utah; or
 - b. the base of operations or the place where the service is directed or controlled is not in any state where some part of the service is performed, but the individual's residence is in Utah.

Amounts reportable for employment security purposes may ordinarily be used to determine the wage factor.

Overall wages, including Utah, are listed in column B.

If you are a pass-through entity taxpayer, add to line 3a any amounts listed on line K of any TC-65 Schedule K-1 you have received.

Line 4 – Payroll Factor Calculation

Determine the payroll factor (decimal) by dividing line 3a, column A by line 3a, column B.

Lines 5a - 5h –Sales Factor

The sales factor is the fraction the sales or charges for services within Utah for the tax year bear to the overall sales for the tax year. Gross receipts from the performance of services in Utah are assigned to the Utah sales numerator if the purchaser of the service receives a greater benefit of the service in Utah than in any other state.

Taxpayers that perform a service both in and outside Utah must include service income on line 5g in column A (Inside Utah) if the purchaser of the service receives a greater benefit of the service in Utah than in any other state. The former "cost of performance" method no longer applies. (See UCA §59-7-319(3)(a).)

Sales of tangible personal property are in Utah if the property is delivered or shipped to a purchaser within Utah regardless of the F.O.B. point or other conditions of the sale, or if the property is shipped from an office, store, warehouse, factory or other place of storage in Utah and:

1. the purchaser is the United States Government, or
2. the taxpayer is not taxable in the state of the purchaser.

Overall sales, including Utah, are listed in column B.

Note: Securities brokerage businesses must follow the provisions in UCA §59-7-319(6).

If you are a pass-through entity taxpayer, add to line 5g any amounts listed on line L of any TC-65 Schedule K-1 you have received.

Enter totals of lines 5a through 5g in their respective columns on line 5h.

Line 6 – Sales Factor Calculation

Determine the sales factor (decimal) by dividing line 5h, column A by line 5h, column B.

Line 7 – NAICS Code

This is a mandatory field. Your NAICS code may dictate your apportionment method.

Enter on line 7 the NAICS code for the primary business activity. Do not use the holding company NAICS code.

- If the numerator is zero, but a denominator is present, include that factor in the number of factors present.

Enter the apportionment fraction (decimal) here and on Schedule A, line 12.

Enter an "X" if the S corporation entered a "1" in the **Withholding Waiver Request** box at the top of Schedule N to not withhold Utah tax on all pass-through entity taxpayers, or if

the S corporation entered a "2" in the **Withholding Waiver Request** box at the top of Schedule N and entered an "X" on line B of Schedule N for this specific shareholder.

Provide each shareholder a copy of their Utah Schedule K-1.

Schedule M – Qualified Subchapter S Subsidiaries

An S corporation that has made a Qualified Subchapter S Subsidiary (QSSS) election under IRC §1361(b) must complete Schedule M if any subsidiaries for which such election was made are incorporated, qualified or doing business in Utah. Federal schedules are not acceptable as substitutes.

You may not use any other form as a substitute for Schedule M without prior approval from the Tax Commission. See *Guidelines for Substitute Utah Tax Forms*, at tax.utah.gov/developers/substitute-forms.

List only corporations incorporated, qualified or doing business in Utah. Corporations not listed on Schedule M will not be considered to have met the Utah filing requirements.

Schedule N – Pass-through Entity Withholding Tax

The S corporation, as a pass-through entity, must pay or withhold tax on behalf of each nonresident individual shareholder, each resident or nonresident business shareholder, and each resident or nonresident trust or estate shareholder (collectively referred to as pass-through entity taxpayers)

unless a withholding waiver request is made (see below). An S corporation is not required to withhold Utah tax on a shareholder if:

- the shareholder is exempt from taxation under UCA §59-7-102(1)(a) or §59-10-104.1;

- this corporation is a plan under IRC §§401, 408 or 457 and is not required to file a return under UCA Chapter 7; or
- this corporation is a publicly traded partnership as defined under UCA §59-10-1403.2(1)(b)(iv).

Ownership Percent: A shareholder's share of taxable income is based on the ratio of stock held by the shareholder to the total outstanding stock on the last day of the corporate filing period, unless there was a change in ownership during the filing period. If there was a change in shareholders or in the relative interest in stock the shareholders owned, each shareholder's percentage of ownership is prorated by the number of days the stock was owned during the filing period.

Shareholders may take a credit for the amount of tax paid by the S corporation on their behalf. To claim the credit, the shareholder must file a Utah income tax return for the tax year. A shareholder subject to withholding by the S corporation and who has no other Utah source income may elect to forego the credit and not file a Utah income tax return. However, shareholders with income or loss from other Utah sources must file a Utah income tax return. A shareholder who is eligible for Utah tax credits, in addition to the pass-through tax withheld, must file a Utah income tax return to claim those credits.

If the shareholder is a pass-through entity, it must file a Utah return to report its income/loss and withholding allocations to its partners/members/shareholders/beneficiaries.

S corporations having shareholders for whom withholding is required must complete Schedule N showing the amount of Utah income attributable to the shareholders, the amount of Utah tax on such income (4.5 percent), any Utah mineral production withholding tax, upper-tier Utah pass-through entity withholding tax credited to the shareholders, taxes paid with form TC-75 (*Voluntary Taxable Income Election for Pass-through Entities*), and the net amount of withholding tax this S corporation must pay on behalf of such shareholders. Use additional forms TC-20S, Schedule N, if needed.

Withholding Waiver Claim (UCA §59-10-1403.2(5))

You may claim a waiver from the requirement to withhold Utah income tax on pass-through entity taxpayers by entering a "1" in the box if the waiver is for all shareholders, or a "2" if the waiver is for only certain shareholders. Also enter an "X" on line B and a "0" in column F for each shareholder for whom the waiver is claimed.

Claiming the waiver for all or specific shareholders does not relieve the S corporation from the responsibility for the payment of Utah tax on the income allocated to shareholders if the shareholders do not pay. If the shareholder or shareholders for whom you claimed a waiver fail to file a return and make the required payment in a timely manner, you will be liable for the withholding, plus any penalties and interest.

Line A – Name of Shareholder (Pass-through Entity Taxpayer)

Enter the name of each nonresident individual shareholder, resident/nonresident business shareholder, or resident/nonresident trust shareholder (referred to as a pass-through entity taxpayer).

Line B – Withholding Waiver for This Shareholder

If you entered either a "1" or a "2" in the **Withholding Waiver Claim** box at the top of Schedule N, enter an "X" on line B if this shareholder is included in the waiver claim.

If you check this box, enter a "0" on line F for the shareholder.

Line C – SSN/EIN of Shareholder

Enter the Social Security number of each nonresident individual shareholder, the federal EIN of each resident/nonresident business shareholder, or the federal EIN of each resident/nonresident trust or estate shareholder.

Line D – Percent of Ownership in S Corporation by Shareholder

Enter the percent of the S corporation the pass-through entity taxpayer owns, to four decimal places.

Line E – Income/Loss Attributable to Utah

Enter the income/loss attributable to Utah and taxable to the pass-through entity taxpayer.

Calculate this income for a pass-through entity taxpayer by multiplying the amount on Schedule A, line 14 by each pass-through entity taxpayer's percentage shown on line D.

Line F – 4.5 Percent of Income

Multiply the amount of income attributable to Utah for each pass-through entity taxpayer (line E) by 4.5 percent (.045). If the amount on line E is a loss, enter "0." Also enter "0" if the waiver request has been requested for this shareholder (box B checked).

Line G – Mineral Production Withholding Credit

Enter the amount of any mineral production withholding tax allocated to the pass-through entity taxpayer. The credit for mineral production withholding tax reduces the amount of Utah withholding tax that is calculated for this shareholder on Schedule N. Payment Coupon

Use payment coupon TC-559 to make the following corporate/partnership tax payments:

- 1) Estimated tax payments
- 2) Extension payments
- 3) Return payments

Mark the circle on the coupon that shows the type of payment you are making.

Corporation Estimated Tax Requirements

Every corporation with a tax liability of \$3,000 or more in the current or previous tax year must make quarterly estimated tax payments. A parent company filing a combined report must make the payment when the total tax is \$3,000 or more for all affiliated companies, including those that pay only the minimum tax.

A corporation does not have to make estimated tax payments the first year it is required to file a Utah return if it makes a payment on or before the due date, without extension, equal to or greater than the minimum tax.

Estimated tax payments are due in four equal payments on the 15th day of the 4th, 6th, 9th and 12th months of the entity's taxable year. You may make quarterly payments equal to 90 percent of the current year tax or 100 percent of the previous year tax. A corporation that had a tax liability of \$100 (the minimum tax) for the previous year may prepay the minimum tax amount of \$100 on the 15th day of the 12th month instead of making four \$25 payments.

The Tax Commission will charge an underpayment penalty to entities that fail to make or underpay the required estimated tax.

Extension Payment Requirements

A corporation/partnership has an automatic filing extension if it makes the necessary extension payment by the return due date. The estimated tax payments must equal at least the lesser of:

- 1) 90 percent of the current year tax liability
(or the \$100 corporation minimum tax, if greater), or
- 2) 100 percent of the previous-year tax liability.

The remaining tax, plus any penalty and interest, is due when the return is filed.

Note: A pass-through entity (partnership or S corporation) must pay 100 percent of any pass-through withholding by the original due date to avoid penalties and interest.

SEPARATE AND RETURN ONLY THE BOTTOM COUPON WITH PAYMENT. KEEP TOP PORTION FOR YOUR RECORDS.
