

# Electronic Funds Transfer

## Paying Tax by ACH Credit

### General Information

Electronic Funds Transfer (EFT) is a method to pay your taxes electronically. EFT is safe, secure, efficient and less expensive than paper checks.

This publication explains how to make tax payments using the ACH credit method.

**NOTE: EFT is a payment method only. You must file a tax return separately for each period.**

### Pre-authorization

You must submit form TC-86, *Registration to Make Utah Tax Payments Through EFT ACH Credit*, and be approved before you can make ACH credit payments. See form TC-86 at the end of this publication. We will send you written confirmation when we approve your registration. Allow up to 10 days for confirmation.

### Rules and Guidelines

All laws and rules concerning Utah taxes, reporting periods and deadlines remain valid for EFT payments.

We may assess a penalty for late payments. Payments are considered late if they:

- arrive in the Tax Commission bank account after the due date, or
- do not include all the required information.

For due dates, see *Due Dates* in this publication.

### Getting Started

You must authorize your bank to make EFT transfers. Make a separate transfer for each tax account and each reporting period.

When you authorize an EFT transfer, your bank will require you to specify a settlement date. The settlement date is the date your electronic payment will be taken from your account and credited to the Tax Commission's account. Payments you authorize before the tax due date will not be made until the settlement date.

Because the ACH system requires at least one day to transfer funds, you must authorize your payment at least one business day before the due date. Some banks may require more than one day to process EFT payments. Check with your bank to allow enough processing time for your payment.

### Making Your First EFT Payment

Many banks require a pre-note (test transmission) for a zero amount before they will transfer actual funds. This may take up to 10 days to complete. Contact your bank for more information.

Notify the Tax Commission in advance of the pre-note by calling 801-297-3817 or 1-800-662-4335 ext. 3817.

### Addendum

Your transfer must include addenda information to identify your payment. Transfers must conform to the Tax Payment (TXP) Banking Conventions. Authorize your bank to make ACH-Credit CCD + TXP addendum transfers.

### Addendum Transfer Format and Content

Make the EFT payment as follows:

Credit to: **Utah State Tax Commission**  
Bank: **Wells Fargo Bank**  
**299 S Main St**  
**Salt Lake City, UT 84111**  
Routing number: **1210-00248**  
Account number: **051-08051-61**

**Use only the first 11 digits of your 14-character tax account number. Do not include the three letters at the end of the number.**

## Addendum Record Format and Content

The addendum record must include the following fields. Fields marked with a (1) may vary, so pay special attention to those entries.

When coding field 7, you must use a valid “tax period end-date” (YYMMDD) for the tax period. Using the transmission or due date in this field will delay processing.

| Field           | Length | Contents        | Description   |
|-----------------|--------|-----------------|---|
| 1               | 3      | TXP             | Segment identifier  |

## Due Dates

Payments are due the last day of the month after the filing period ends. For example, April-June period payments are due July 31.

If the due date is on a weekend or holiday, payments are due the next business day.

## Additional Information

### Sales Tax

Filers whose annual Utah sales tax liability is \$96,000 or more must pay sales and sales-related taxes by EFT. See Pub 25, *Sales and Use Tax General Information*.

### Corporate Tax

Filers can pay by ACH Credit.

The tax period end date for corporate tax is the taxable year end date.
